

Important Public Meeting

# Protect Your Natural Health Products

Urgent Wake-up Call and Update Feb. 2nd

*This year will determine the future of natural health products in Canada.*

*Are you aware of the potential consequences of Natural Health Product Regulations?*

**Were you concerned about Bills C51 & C52?** Constitutional lawyer and regulations expert Shawn Buckley, LLB, will explain how government regulations are tightening the noose around health freedoms and access to natural health products. He will cover:

- The use of language to control public thinking
- How regulations, developed for 'safety and security', could actually cause more harm than the products themselves.
- The unfortunate results of a recent court case ruling, which sets a dangerous precedent for the majority of natural health products becoming re-classified as available only through prescription.

**When: Monday February 2nd, 7:00 pm**

**Where:** St. Andrew's-Wesley Church,  
1022 Nelson Street at Burrard, Vancouver
